WORK EXPERIENCE

◆ Internship In Data Analysis & Visualization Job Simulation at Accenture (Nov 2024)

I completed a hands-on job simulation where I analyzed large datasets and presented actionable insights using tools like Excel, Tableau, and Python. This internship helped me sharpen my data visualization skills and my ability to interpret complex data for decision-making.

◆ Internship In Cyber Security Internship at Oneness (Oct 2023)

During my cybersecurity internship, I gained valuable experience in threat analysis, data protection techniques, and the fundamentals of network security. I also contributed to improving the organization's security posture by assisting in vulnerability assessments and implementing security protocols.

◆ Internship In Web Development Internship at Oneness (Aug 2023)

In my web development internship, I worked on building responsive, user-friendly websites using HTML, CSS, JavaScript, and various frameworks. I collaborated with a team to improve user experience and optimize website performance, which gave me a strong foundation in web development best practices.

PROJECTS

◆ Online Food Delivery App - Mega Project

Designed and developed a full-stack online food delivery application with features such as restaurant listing, menu browsing, order placement, and secure payment integration. Implemented a responsive user interface and robust back-end architecture to ensure seamless user experience and efficient order management.

◆ Virtual Calculator Using Hand Gestures - Mini Project

Created a virtual calculator using machine learning to recognize hand gestures for mathematical operations. Implemented with Python and OpenCV to enhance accessibility and innovation in interaction.
